PROFRSSIONAL SUMMARY

Computer Science and Statistics undergraduate focused on software development and Machine Learning. Proficient in Java, Python, and Data Science, with a strong foundation in statistical methods. Gained practical experience developing AI models, building IoT solutions and analyzing complex data through academic projects. Seeking an internship to contribute technical expertise to a dynamic team.

EDUCATION

BSc (Joint Major) Computer Science & Information Systems with Statistics, Mathematics & Mathematical Modelling (Reading) | 2022-Present

Wayamba University of Sri Lanka

- Relevant Coursework: Software Engineering, Artificial Intelligence, Distributed and Cloud Computing, Data Analysis & Preparation of Statistical Reports, Stochastic Processes, Quality Control, Time Series Analysis, Actuarial Mathematics.

Certifications:

Python Essentials for Data Science | 2025

University of Colombo, Center for Data Science

- Relevant Coursework: Data Manipulation & Visualization, Machine Learning.

Nalanda College Colombo 10

- G.C.E. Advanced Level (Physical Science)

RESEARCH EXPERIENCE

Undergraduate Research | 2025 – Ongoing

Wayamba University of Sri Lanka – Department of Computing and Information Systems

- Development of an NLP-based recruitment system utilizing Python and BERT Transformers for Resume and Job Description alignment.
 - Optimization of semantic ranking and text classification through the fine tuning of Large Language Models.
 - Execution of end-to-end data preprocessing and rigorous model evaluation to ensure system accuracy.
-

PROJECTS

AI Based Crop Recommendation System-Agriculture | Group project

Wayamba University of Sri Lanka | 2025-2026

- Designed mobile UI in Figma and built cross-platform app using Flutter.
- Preprocessed agricultural data with Python (Pandas/NumPy) to fine tune LLM for crop disease detection.
- Developed Python chatbot backend integrating AI model with frontend.

IoT Based Environmental Monitoring & Safety System for High-Risk Zones | Group project

Wayamba University of Sri Lanka | 2025

- Developed and tested hardware architecture on Wokwi simulation platform.
- Configuration Configured Arduino sensors for real-time environmental monitoring.
- Built web dashboard for live monitoring and safety alerts.

Statistical Analysis of Selling Price of Houses | Group project

Wayamba University of Sri Lanka | R- Statistical Analysis | 2025

- Execution Analyzed 1,000 U.S. properties to identify key pricing determinants.
- Built Multiple Linear Regression model in R Studio with statistical visualization.

Monthly Miles Traveled Analysis (Time Series) | Group project

Wayamba University of Sri Lanka | Time Series | 2024

- An Analyzed 11-year Melbourne transportation dataset using Box Jenkins methodology.
- Achieved 99.4% forecasting accuracy with optimized SARIMA model.

Inventory Management System (Rapid Application Development) | Group project

Wayamba University of Sri Lanka | 2024

- A Developed C# desktop application with WinForms for real-time supermarket inventory tracking.
- Automated Implemented automated reporting with SQL Server/MySQL, reducing manual errors.

TECHNICAL AND SOFT SKILLS

- Computing: Python, Java, Dart (Flutter), R (Statistical Analysis), UI/UX, SQL.
- Data Science & AI: Machine Learning, NLP (BERT), LLM Fine tuning, Pandas, NumPy.
- Other Skills: Power BI, Excel, Analytical Problem Solving, Leadership.

ACTIVITIES AND POSITIONS HELD

- Appointed as Swimming Team Captain for Wayamba University of Sri Lanka, led the university team during the SLUG 2025 Swimming Championship.
